-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 recites a “bottomless ... tank” in the preamble and a “bottomless spar” in the body of the claim in line 2, a “pliable film for preventing oil in the tank and sea water from adhering to each other” is stated in the last two lines. The pliable film is shown in Fig. 3 extends across the bottom of the tank because Fig. 3 is a plan view section at section A of Fig. 1 viewing the bottom of the tank. The term “bottomless” contradicts the term “pliable film” as defining a pliable film bottom as this term is supported in the specification.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 2 is rejected under 35 U.S.C. 102(b) as being anticipated by Shurtleff.

Shurtleff discloses a bottomless spar-type oil storage tank insofar as disclosed by applicant to be bottomless with a pliable film bottom, the tank comprises a bottomless spar insofar as disclosed by applicant to be bottomless with a pliable film bottom, the tank comprises a buoy (53, or the floating barrier fence with the storage tank supported therebeneath), dual walls (15 and 17) for solving a buoyancy and ballasting problem, and a pliable film (61) for preventing oil in the tank and sea water from adhering to each other (see the dotted line representation

denoted 68 in Fig. 1 and lines 25-45 of col. 3 which explains a transport mode in which membrane 61 extends across the open bottom to seal the open bottom with inflatable sealing element 57 including membrane 61 and inflatable peripheral portion 59). The transport mode inherently provides oil storage.
